

OMODAMOLA OLADEJI

Senior Full-Stack Engineer | Fintech & Payment Systems

Lagos, Nigeria | +234 813 532 1769 | omodamolaoladeji@gmail.com | linkedin.com/in/omodamola-oladeji-612b6179 | github.com/darmhoo

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 7+ years of experience building scalable fintech platforms, payment systems, and enterprise business applications across the full development lifecycle. Deep expertise in React, Vue.js, TypeScript, PHP/Laravel, and Go, with a strong track record integrating payment providers (M-Pesa, Paystack), core banking systems, and messaging/notification services into secure, production-grade applications. Comfortable owning features end-to-end — from database design and API architecture through frontend delivery — and collaborating with product and business stakeholders to ship reliable, maintainable software.

TECHNICAL SKILLS

- **Languages:** Go, PHP, JavaScript, TypeScript, SQL
- **Frontend:** React.js, Vue.js, Nuxt.js, React Native, Livewire, Alpine.js, Tailwind CSS, Bootstrap, HTML5/CSS3
- **Backend:** Laravel, Go, REST APIs, Microservices, OAuth2, JWT, HMAC, Webhooks
- **Payments & Integrations:** M-Pesa, Paystack, Core Banking, Africa's Talking, Twilio, SMTP
- **Databases & Infrastructure:** PostgreSQL, MySQL, Redis, Docker, Nginx, Linux, Git/GitHub, CI/CD, Background Jobs & Queues
- **Practices & Tools:** System Design, Database Design, Automated Testing, Performance Optimization, Code Review, Production Support, Postman, Bruno

PROFESSIONAL EXPERIENCE

Senior Developer

Jun 2025 – Present

Jethro Limited — Lagos

- Architect and build scalable financial and business applications end-to-end — from database schema and backend services (Go, PostgreSQL, Redis, Docker) through API design and frontend delivery.
- Built a reusable provider/adaptor architecture that lets the platform plug in new payment, messaging, and notification providers without rework, integrating M-Pesa, Africa's Talking, Twilio, SMTP, and core banking systems.
- Develop secure REST APIs using OAuth2, JWT, and HMAC-based authentication, and implement payment processing workflows including transaction handling, webhook processing, and provider callbacks.
- Lead troubleshooting of API, database, networking, and authentication issues across distributed production systems, and participate in architecture decisions, code reviews, and technical design.
- Partner directly with business stakeholders to translate requirements into practical, maintainable technical solutions.

Independent Contractor — Full-Stack Development

Oct 2024 – Jun 2025

- Delivered full-stack web and API development for fintech and business clients on a contract basis, working across React/Vue frontends and Laravel/Go backends.

Full-Stack Developer

Jul 2019 – Oct 2024

Altara Credit Limited — Lagos, Nigeria

Owned frontend and backend delivery across the company's core fintech, CRM, HR, and logistics platforms.

- Built and maintained major modules of the company's core business platform (Altara Portal), including a logistics management module for product lifecycle tracking, and payment processing and staff management features, using Vue.js and PHP/Laravel.
- Designed and built a CRM platform (Altara CRM) supporting multiple business units, including backend APIs, database structures, and reusable frontend components for different teams.
- Owned significant portions of the frontend for a customer-facing React Native loan application (Altara Loan App), covering loan applications, status tracking, and supporting backend APIs.
- Designed and built an internal HR management module (Altara HRM) that automated previously manual HR workflows, including database design and backend logic.

SELECTED PROJECTS (FREELANCE, CONCURRENT WITH FULL-TIME ROLES)

School of Ministry LMS — Senior Developer

Feb 2022 – Jun 2024

- Built v1 and v2 of a Learning Management System (Laravel backend, React frontend) handling student registration, course management, attendance, and payments, with Paystack integration for online payments.

VTU PWA Application — Full-Stack Developer

Jan 2024 – Dec 2024

- Built features for a Progressive Web Application handling digital services and transaction workflows, including external API integrations and responsive interfaces.

EDUCATION

Bachelor of Science, Computer Engineering

Feb 2012 – Mar 2017

Obafemi Awolowo University

VOLUNTEER EXPERIENCE

Volunteer, Andela Learning Community

Mar 2018 – Feb 2019

Participated in collaborative software development and technical learning activities focused on modern engineering practices.
